Engage2Excel Named on HRO Today's 2017 Baker's Dozen List of Recognition Providers

STATESVILLE, N.C., August 17, 2017 – HRO Today, a leading magazine for human capital management, announced their 2017 Recognition Baker's Dozen Customer Satisfaction Survey List, and Engage2Excel made the exclusive list for the sixth time, ranking 5th overall.

"We take great pride in this recognition and strive to offer our more than 2,700 unique clients with exceptional service," said, Phil Stewart, CEO, Engage2Excel. "Our goal is to be our clients' trusted advisor to improve engagement in all phases of their employees' careers, especially now, as the workforce demands flexible, innovative solutions to address today's workforce challenges."

HRO Today's Baker's Dozen rankings are an important measure of customer satisfaction. As a leading benchmark for recognition provider differentiation, it also serves as a reminder for providers to continuously raise the bar in the quality, services and value offered to clients.

The results are based on survey feedback from buyers of the rated services. The data is analyzed to determine the rankings and the overall score, and individual scores are calculated for three categories – service breadth, deal sizes and quality.

"Engage2Excel's mission to increase engagement to drive results throughout the talent lifecycle is resonating with our customers," said Jeff Gelinis, VP of Product & People, Engage2Excel. "And at each phase of the talent lifecycle, we're creating innovative solutions based on our proprietary research on candidates and employees. From our newly launched pre-boarding solutions to engage new hires before their first day to our recognition Chatbot, 'GrantMe,' which integrates with popular messaging apps to connect employees with recognition in a convenient way, we are changing the way employers and their employees engage."

Over the past two years, Engage2Excel has transformed from a recognition company into a human capital management solutions provider. In addition to recognition programs, the company provides industry-leading talent acquisition, employee survey and ROI-based analytics solutions.
