About the PEAK Matrix™

The [Everest Group PEAK Matrix](#) is a proprietary framework for assessing the relative market success and overall capability of service providers based on Performance, Experiences, Ability and Knowledge. Each service provider is comparatively assessed on two dimensions: market success and delivery capabilities. Market success is measured by revenue, number of clients and year-over-year growth. Delivery capability is measured by scale of operations, scope, technology and innovation, delivery footprint and buyer satisfaction. The resulting matrix categorizes service providers as Leaders, Major Contenders, and Aspirants. Companies that demonstrate strong upward movement in successive reports are recognized as Star Performers.
