**ENGAGE2EXCEL NAMES DARREN FINDLEY  
AS PRESIDENT OF RECRUITMENT SOLUTIONS**

**STATESVILLE, N.C., May 24, 2016** – Engage2Excel, Inc. has named industry veteran Darren Findley as President of Recruitment Solutions.

“We are thrilled to bring someone with such a comprehensive background in recruitment process outsourcing (RPO) and staffing solutions to lead new business opportunities at Engage2Excel,” says Phil Stewart, chief executive officer. “Darren’s experience in corporate recruitment makes him the ideal person to bring innovative solutions to our client’s workforce challenges.”

Darren joins Engage2Excel with over thirty-two years of recruitment experience, including seventeen years in the RPO space. Darren has spent the last year at AMN Healthcare, as vice president and general manager of RPO. Prior to AMN, Darren worked at IBM/Kenexa as vice president and managing director of recruitment solutions, where he led recruitment-outsourcing programs for clients, including UnitedHealth Group, US Steel, Flowserve, Allstate Insurance, Express Scripts and Sprint PCS.

“Today HR departments are faced with many responsibilities, and when it comes to talent recruitment there is high demand for top talent and little time to act on interested candidates,” says Stewart. “That’s why I am confident Darren and his team will provide the right talent solutions to our clients so they can focus on other critical organizational initiatives.”

“With the talent war that is upon us, there is nothing more important than acquiring and retaining the top talent for an organization,” says Findley. “Engage2Excel now has a talent management offering that will enable clients to attract, engage and retain top performers and impact business performance.”

As a trusted partner who understands talent acquisition, rewards and recognition, and employee engagement, Engage2Excel addresses the top concerns and challenges of today’s C-suite.

## About Engage2Excel, Inc.

Engage2Excel, Inc., formerly TharpeRobbins, is a privately held provider of employee engagement and recognition programs. With the company's vast industry knowledge and expertise in outcome-based program design for a wide variety of clients—from Fortune 500 corporations to entrepreneurial firms—Engage2Excel helps clients measure, manage, and improve performance with the industry's only ROI-based employee recognition solution. Headquartered in Statesville, N.C., with an ISO-certified facility in Attleboro, Mass., Engage2Excel has a long history of pioneering solutions dating back to the founding of The Robbins Company in 1892.
